

Bolters

Patented technology

Simple design

Quality components

As the premier provider of drilling solutions, Komatsu Mining's extensive experience performing conversions means a seamless transition, regardless of the drill manufacturer.

KOMATSU OFFERS FIVE BOLTING HEADS FOR CONVERSION

Our bolter systems incorporate two independent feed systems mounted on a rotational indexing system. They also offer a rock bolt holding carousel for quick loading of up to 9 bolts.

Our bolter systems are designed to enhance your hard rock drilling operation with patented technology and flexible yet durable materials for a complete rock support system.

BOLTING HEADS FEATURE

- Indexing system
 - Allows for convenient and precise line-up of rock bolts with drilled holes
- Patented Flexible urethane bolt centralizer
 - Allows the centralizer to flex out of the way of the bolt driver
- Screen handler attachment
 - Patented screen handler mounted directly to the stinger extension tube, for ease and safety of operators to hang screen
- Hydraulic centralizer option
 - Helps when drilling deeper holes, adding and changing drill string
- Independent feed crowd
 - Helps operators get into narrow and awkward spaces
- Up to 9-bolt carousel is operated hydraulically and holds all types of bolts:
 - Split-sets
 - Swellex
 - Rebar
 - Rock bolts
 - And more

Unit specifications	
Bolt range	5'-10'
Feed extension	16 13/16" (427 mm)
Stinger extension	17 13/16" (452 mm)
Carousel capacity	Up to 9 bolts

Bolter Options	Standard	Optional
Fixed centralizer	X	
Hydraulic centralizer		X
Patented screen handler		X
Drill steel handler		X

Drifter specifications	
Striking bar (drilling)	Female R25/R28/R32
Striking bar (bolting)	Male R32/R38

Consumable specifications	
Bolts	Split-set, Swellex, Rebar
Plates	6" x 6"

Drifter options	
Optional drifters	HC25, HC28, HC50
